Unit Model	600kW DF Boiler
Duty	600kW
Temperature	50 - 90°C
Fluid Flow Rate	10 l/s
Max working Pressure	10 bar
Power input	410v / 16 amp / Three phase
Full Load Current	8 amps per phase (max)
Max Power Absorbed	5kW
Fuel type	Oil / Gas
Consumption (oil)	63 l/h
Consumption (gas)	68 m3/h
Weight (dry)	3,000kg
Weight (operating)	3,500kg
Length	3,050mm
Height	2,590mm
Width	2,440mm
