

NR-H40E Portable Electric Boiler

D_H/,NF

Product Overview

Versatile – electric boiler suitable for a wide range of different applications – both commercial & industrial

Portable - trolley mounted for easy mobility

Fully packaged – complete with integral circulation pump, expansion tank & pressure relief valve

Digital controller - desired set point can be tailored for the application

Performance Data

Nominal Heating Capacity	12/24/36 kW
Operating Limits Minimum/Maximum Heating Fluid Supply Temperatures Minimum/Maximum Heating Fluid Flow Rate Maximum Working Pressure	/116 1/min
Electrical Data Power Supply Power Connection	
Hydraulic Circuit Connections Expansion Tank Volume	
Physical Data Length	650 mm 1,122 mm
Operating Weight	47 ka
