

## Technical Director

Are you excited by the opportunity to lead business change and growth? Are you eager to apply your skills and experience within a dynamic, expanding, professional team?

Are you energised to develop yourself and the business?

If you are, we'd be delighted to hear from you.

Newsome Ltd is thriving and has an ambitious growth agenda. Our vision is to be the UK's leading provider of process temperature control and HVAC solutions.

We pride ourselves on developing sustained and trusted partnership-centred relationships. These are built upon our extensive engineering experience and expertise in each of our specialist areas. Our clients include many well-known blue-chip organisations in the plastics, food & beverage, chemical and medical industries.

As Technical Director, you will be a member of the senior leadership team with shared responsibility for setting and delivering the business priorities, goals and objectives. Your key accountabilities as the dehumidification and humidity expert for Newsome will be to oversee and advise on design solutions; understanding of the products, share industry knowledge with the wider business, develop and ensure effective delivery of training and development of all employees.

You will lead and develop the technical team in our growth evolution. Based in Elland, West Yorkshire, some travel will be required to support the sales, service and rental teams who cover the UK and Ireland.

So, if you are eager to embrace challenge and can bring extensive experience in dehumidification and humidity along with demonstrative leadership, decision making and service delivery we'd be delighted to hear from you.
